SeaTac Solid Waste RFP – Proposer Q&A Round 1 -

ID	Proposer	Question or Comment	SeaTac Response
1	Cascadia Consulting	We noticed a 6-page max stated for the Executive Summary. Is this the only page count requirement in the proposal response?	Yes.
2	Cascadia Consulting	Is there a specific place in the proposal that the City would like proposers to cover "proposed services, equipment, and approaches", such as in section C1 *Operational Experience*? Or should we cover our approach to this scope of work in the Executive Summary?	Please cover this approach in the executive summary.
3	Cascadia Consulting	Regarding the scoring outlined in the RFQ, should proposers provide report samples in order to be responsive to the evaluation for "quality of prior waste characterization reporting (15 points)"?	Yes.
4	Cascadia Consulting	Would the City consider extending the deadline to allow proposers to integrate considerations of these answers into our proposals?	Yes. A one week extension is acceptable. The due date will now be 10-14
5	Cascadia Consulting	Can we please receive a copy of all questions and answers received for this procurement?	Yes.
