

Title 15

ZONING CODE

Division II. Zone Classifications and Land Use Charts

15.200 Establishment of Zones – CHANGES PROPOSED

15.205 Land Use Chart – CHANGES PROPOSED

15.210 Uses and Standards for the AVO and AVC Airport Zones

15.215 Planned Unit Development (PUD) – CHANGES PROPOSED

Chapter 15.200 ESTABLISHMENT OF ZONES

Sections:

15.200.010 Zones and Map Designations – Established – CHANGES PROPOSED

15.200.020 Official Zoning Map

15.200.030 Zones and Map Designations – Purpose Statements – CHANGES PROPOSED

15.200.040 Zones and Map Designations – Interpretation of Boundaries – NEW SECTION

15.200.010 Zones and Map Designations – Established

In order to accomplish the purposes of the code, the following zone classifications and zoning map symbols are established:

ZONE	MAP SYMBOL
Urban Residential Low Density (followed by a designation indicating minimum lot area in square feet)	UL-15,000 UL-9,600 UL-7,200 RL
Urban Residential Medium Density (followed by a designation indicating minimum lot area in square feet)	UM-3,600 UM-2,400 RM
Urban Residential Medium	URM
Mobile Manufactured Home Park	MHP
Residential High	RH
Urban Residential High Density (followed by a designation indicating minimum lot area in square feet)	UH-1,800 UH-900 URH
Urban Residential High – Urban Center Residential Mixed Use	URH-MUUCR
Townhouse	T
Neighborhood Business Commercial Low	NB CL
Neighborhood Village Medium	NVM
Office/Commercial/Mixed-Use Urban Village Medium	O/C/MUUVM
Neighborhood Village High	NVH
Office/Commercial-Medium Urban Village High	O/C/MUVH
Community Business	CB
Community Business in the Urban Center	CB-C
Regional Business Mix	RBX
Industrial	I
Park	P
Aviation Commercial	AVC
Aviation Operations	AVO

15.205.020 Official Zoning Map

No change to code section. However, a new Zoning Map will be adopted consistent with the changes identified herein.

15.200.030 Zones and Map Designations – Purpose Statements

The purpose statement for each zone and map designation sets forth the type of development within the zones and the general goals of the zone classifications. The purpose also shall guide interpretation and application of land use regulations within the zone classifications, and any changes to the range of permitted uses within each zone through amendments to the code.

- A. **Urban-Residential Low Density-Zone (RUL).** The purpose of this zone is to create a single-family, lower density residential environment outside of the Urban Center that creates high quality housing and, diversity in housing types and affordability. This is accomplished by requiring appropriate residential uses, requiring open space in conjunction with residential development, providing incentives for affordable housing, and protecting environmentally sensitive sites from over-development.
- B. ~~**Townhouse-Zone (T).** The purpose of this zone is to create a medium density residential environment that functions as a buffer between adjacent single family areas and more intensely developed higher density residential or commercial/mixed use areas. This is accomplished by applying design standards that result in a building type that has some single family characteristics while allowing medium residential densities that will support transit ridership, and allowing some commercial uses in the mixed use context.~~
- C.B. **Urban-Residential Medium Density-Zone (RUM).** The purpose of this zone is to create a higher medium density residential environment than single-family located outside of the Urban Center, while maintaining a desirable family environment residential neighborhood patterns. This zone acts as a transition between the Residential Low Zone and other higher-density zones. This is accomplished by effective clustering and zero lot line planned developments, requiring adequate public facilities and establishing incentives for greater open space, recreational facilities and potential linkage to high-capacity transit modes.
- D.C. **Urban Residential Medium Zone (URM).** The purpose of this zone is to create medium density residential options within the Urban Center. This zone acts as a transition between higher intensity zones in the Urban Center and medium density zoning outside of the Urban Center. This is accomplished by requiring adequate public facilities and establishing incentives for greater open space, recreational facilities and potential linkage to high-capacity transit modes.
- E.D. **Mobile Manufactured Home Park Zone (MHP).** The purpose of this zone is to provide areas for existing manufactured/mobile home parks, locate potential sites for relocation purposes, and/or allow the creation of parks which serve citizens/residents while providing sense of ownership and pride. ~~Additionally, this zone will provide appropriate areas for senior citizen parks.~~
- F.E. **Residential High Zone (RH).** The purpose of this zone is to create a high-density multi-family housing environment outside of the Urban Center that encourages and, when possible, utilizes high-capacity transit, and allows for some small resident-oriented businesses. This is accomplished by requiring adequate public facilities and services be in place to support higher density living including, allowing school and church uses, and establishing incentives for greater open space, recreational facilities, and potential linkage to high-capacity transit modes.
- G.F. **Urban Residential High Density-Zone (URH).** The purpose of this zone is to create a high-density multi-family housing environment within the Urban Center that encourages and, when possible, utilizes high-capacity transit modes and allows for a limited amount of some small resident-oriented businesses as part of a mixed-use development, while ensuring an adequate balance of single-family to multi-family housing in the City of SeaTac. This is accomplished by requiring adequate public facilities and services be in place to support a high density level/higher-density living, including, encouraging clustering and zero lot line developments with some neighborhood business support, allowing school and church uses, and establishing incentives for greater open space, recreational facilities, and potential linkage to high-capacity transit modes.
 - 1. ~~**Urban High Urban Center Residential (UH-UCR) Zone.** The UH-UCR zone, within the urban center, specifically provides for special urban densities and design standards.~~
- H.G. **Urban Residential High - Urban Center Residential Mixed Use (UH-UCR) Zone (URH-MU).** The ~~UH-UCR~~ purpose of this zone is to provide for higher-density residential and mixed-use development, located, within the Urban Center, that complements bordering high-intensity commercial areas, specifically provides for special urban densities and design standards.

- I.H. Neighborhood Business Zone (NB). Commercial Low (CL)** The purpose of this zone is to provide convenient daily retail and some personal services for a limited service area, and to maintain or enhance the residential area that is served by the businesses. This is accomplished by limiting nonresidential uses to specific needed services, permitting mixed use of multi-family and retail, excluding community/regional business scale uses, and encouraging potential linkages to high-capacity transit modes serve nearby residential and commercial neighborhoods outside of the Urban Center by providing convenient, primarily resident- and daily need-oriented goods and services.
- J.I. Neighborhood Village Medium Zone (NVM).** The purpose of this zone is to provide access to everyday needs to local community members located outside of the Urban Center, including a range of moderately-scaled housing options that are compatible with adjacent residential areas, and provides a transition to the higher-density Neighborhood Village High Zone.
- K.J. Office/Commercial/Mixed Use Zone (O/C/MU) Urban Village Medium (UVM).** The purpose of this zone is to create a commercial-mixed-use medium-density designation in the Urban Center that is more resident-neighborhood services-oriented and less intense than the O/CMUVH zone. This is accomplished by excluding larger-scale commercial uses, and requiring that most retail and commercial uses be allowed only in the mixed-use context. This zone is designed to be a transitional zone that is compatible with the residential areas surrounding the Urban Center.
- L.K. Neighborhood Village High Zone (NVH).** The purpose of this zone is to provide access to everyday needs to local community members located outside of the Urban Center, through mixed-use development types, including a range of moderate- to higher-scale housing options that are compatible with adjacent residential areas, while still providing a moderate intensity of resident-orientated commercial uses.
- M.L. Office/Commercial Medium Zone (O/CM) Urban Village High (UVH).** The purpose of this zone is to create a commercial-mixed-use medium-density moderate-to higher-density designation that provides retail and service-oriented businesses on the ground floor or on the same site to serve residents, employees, and visitors in the Urban Center. This is accomplished by allowing professional offices, a multitude of retailing types, personal services and smaller hotels, restaurants and coffee shops. Developers will be encouraged to mix uses. Mid-rise apartments or mixed residential-commercial or office-residential developments shall also be encouraged in this designation. Structured parking shall be encouraged where feasible. This zone is designed to be a transitional zone between the Urban Village Medium zone and the highest intensity commercial uses within the Urban Center.
- N.M. Community Business Zone (CB).** The purpose of this zone is to provide the highest-intensity commercial development outside of the Urban Center in the form of retail/personal services for a local service area which exceeds the needs of adjacent neighborhood or commercial areas, and to provide retail and personal services on a community-oriented basis. This is accomplished by providing for professional offices, a wide range of retail and personal services, sale of commodities, mixed-use development, and the potential integration of access to high-capacity transit stations or lines and other complete neighborhood infrastructure and services.
- O.N. Community Business in the Urban Center (CB-C) Zone (CB-C).** In the CB-C zone, located within the urban center, special design standards apply. The purpose of this zone is to provide the highest intensity commercial development within the Urban Center in the form of retail/personal services for a local service area which exceeds the needs of adjacent neighborhood or commercial areas, and to provide retail and personal service on a community-oriented basis. This is accomplished by providing for professional offices, a wide range of retail and personal services, sale of commodities, mixed-use development, and access to high-capacity transit and other complete neighborhood infrastructure and services.
- P.O. Regional Business Mix (RBX).** The purpose of this zone is to provide a higher intensity commercial zone providing areas for the compatible development of heavy commercial uses such as warehouse/distribution, light assembly and service commercial in tandem with people-intensive commercial uses, such as office and related retail uses. It is a transitional zone between industrial areas and less intensive commercial, mixed use or residential zones. The Regional Business Mix zone implements the Comprehensive Plan's Regional Business Mix land use designation.
- Q.P. Industrial Zone (I).** The purpose of the industrial zone is to provide for the location and grouping of industrial enterprises, regional airport, airport related facilities, and activities involving manufacturing, assembly, fabrication, processing, bulk handling, storage, research, warehousing and heavy trucking. These purposes are accomplished by permitting a wide range of industrial uses, establishing appropriate development standards and public review for developments that have potential adverse impacts, and ensuring the location of clean industries.

~~R.Q.~~ **Park Zone (P).** The purpose of this zone is to establish park and open space areas for residential and commercial uses, and to designate areas on hillsides, steep slopes, wetlands, and critical sensitive areas in order to protect them. This purpose is accomplished by providing for outdoor passive and active recreation uses, conservation and protection of municipal watersheds, wildlife corridors and habitats.

~~S.R.~~ **Aviation Commercial (AVC).** The purpose of this designation is to create a zone for development that provides support to operations of the airport, the traveling public, and air cargo, and for other development that provides economic benefit to the airport and community while maintaining compatibility with airport operations and activities.

~~T.S.~~ **Aviation Operations (AVO).** The purpose of this designation is to create a zone for development of the range of facilities that provide for safe and efficient commercial operations and support, together with security, access, the needs and convenience of the traveling public, and handling of air cargo.

15.200.040 Zones and Map Designations - Interpretation of Boundaries

Where uncertainties exist as to the location of any zone boundaries, the following rules of interpretation, listed in priority order, shall apply:

A. Where the boundaries are not clearly designated in regard to rights-of-way, the Director shall determine the nearest lot line to be the boundary for a zone boundary;

B. Where boundaries are indicated as following lines of ordinary high water, or government or meander line, the lines shall be considered to be the actual boundaries, and if these lines should change, the boundaries shall be considered to move with them;

C. Where a public right-of-way is vacated, the vacated area shall have the zone classification of the adjoining property with which it is first merged; and

D. If none of the rules of interpretation described in subsections (A) through (C) of this section apply, then the zoning boundary shall be determined by map scaling.

Chapter 15.205 LAND USE CHART

Sections:

- 15.205.010 Establishment of Uses/Interpretation of Land Use Chart
- 15.205.020 Classification of Unlisted Uses and Clarification
- 15.205.030 Use Chart Guide – CHANGES PROPOSED**
- 15.205.040 Use Chart – CHANGES PROPOSED**
- 15.205.050 Hazardous Waste Use Requirements

15.205.030 Use Chart Guide

- A. About the Use Chart. The following chart lists all of the permitted and conditional land uses allowed in each zone.
- B. How the Use Chart is Organized. The uses are generally alphabetical within the following category headings:
 - 1. Animals;
 - 2. Business Services;
 - 3. Civic and Institutional;
 - 4. Educational;
 - 5. Health and Human Services;
 - 6. Manufacturing;
 - 7. Motor Vehicles;
 - 8. Recreational and Cultural;
 - 9. Residential;
 - 10. Retail and Commercial;
 - 11. Utilities.
- C. How to Use the Use Chart. The land uses are listed vertically along the left hand side and the zones are listed horizontally across the top. Each square in the chart shows the following possibilities for the use and the zone:
 - 1. P: The use is permitted.
 - 2. C: The use is allowed subject to a conditional use permit.
 - 3. If the square is blank, the use is not permitted in that zone.
 - 3.4. [For properties zoned Aviation Operations \(AVO\) and Aviation Commercial \(AVC\) zones, the standards and permitted uses of Chapter 15.210 Uses and Standards for the AVO and AVC Airport Zones apply.](#)
- D. Additional Standards According to Use. Additional standards that apply to a particular use and zone are noted by number and described in the column on the far right of the chart. If the standard is not preceded by a number, the standard applies to all zones.

Chapter 15.215

Planned Unit Development (PUD)

Sections:

15.215.005	Purpose
15.215.010	Initiation of Project – Application
15.215.015	Procedure for Approval – CHANGES PROPOSED
15.215.020	Phased Development
15.215.025	Combined Applications - REPEALED
15.215.030	Preliminary Development Plan – CHANGES PROPOSED
15.215.040	Final Development Plan – CHANGES PROPOSED
15.215.050	Zoning Map Revision
15.215.060	Building Permits – Certificates of Occupancy
15.215.070	Subdivision Requirements
15.215.080	Sale of Lots
15.215.090	Lots Subject to Final Development Plan
15.215.100	Adjustments – Procedures – CHANGES PROPOSED
15.215.110	Termination of Final Planned Unit Development – Failure to Commence or Continue Construction
15.215.120	Extension of Time for Construction – CHANGES PROPOSED
15.215.130	Applicability of Provisions
15.215.140	Location – Uses Permitted
15.215.150	Access to Development – CHANGES PROPOSED
15.215.160	Common Open Space – Requirements
15.215.170	Permissive Variations in Requirements
15.215.180	Yards
15.215.190	Distance Between Buildings
15.215.200	Building Height
15.215.210	Number of Dwelling Units
15.215.220	Residential Density Incentives
15.215.230	Site Coverage
15.215.240	Off-Street Parking
15.215.250	Common Walls
15.215.260	Notice of Public Hearing - REPEALED
15.215.270	Judicial Review – REPEALED

15.215.015 Procedure for Approval

A PUD shall be processed as a Type III project permit consistent with SMC Title 16A.

The procedure to be followed for approval of a PUD shall be composed of two (2) steps:

A. Review of the development plan by the Hearing Examiner who shall make a recommendation to City Council; and

B. Review of the recommendation of the Hearing Examiner by City Council.

~~15.215.025 Combined Applications~~

In all cases:

A. An applicant may file a concurrent subdivision application, meeting the requirements of the Subdivision Code which shall be processed concurrently with the PUD application.

B. The applicant may also file a concurrent rezone application, meeting the requirements of SMC 15.115.050, Zone Reclassification (Rezone), which shall be processed concurrently with the other application(s).

15.215.030 Preliminary Development Plan

A. **Preliminary Development Plan – Filing Requirements.** The applicant shall file a preliminary development plan with the Director including, at a minimum, the following information:

1. A legal description and site location map of the property;
2. A proposed site plan and/or drawings with five (5) foot contour intervals showing the principal topographic contours; individual trees over eight (8) inches in diameter measured three (3) feet above the base of the trunk in areas to be developed or otherwise disturbed; designated placement, location, and principal dimensions of buildings, streets, parking areas, recreation areas and other open space and landscaping areas; and all property within the area determined by the Director to be relevant for comprehensive planning and environmental assessment purposes; together with a conceptual plan for its development;
3. Drawing and/or text showing scale, bulk, and architectural character of structures;
4. Special features;
5. Text describing conditions or features which cannot be adequately displayed on maps or drawings;
6. A description of plans for covenants, uses and continuous maintenance provisions for the project;
7. A conceptual landscape plan;
8. A circulation diagram indicating the proposed movement of vehicles and pedestrians within the PUD, and to and from existing and programmed thoroughfares; and special engineering features and traffic regulating devices needed to facilitate or ensure the safety of this circulation pattern.

B. **Preliminary Development Plan – Staff Recommendation to the Hearing Examiner.** After receiving the preliminary development plan, the Director shall route the same to all appropriate City departments, and each department shall submit to the Director comments and recommendations. After receiving such information from the City departments, the Director shall present recommendations and conclusions before the Hearing Examiner at the public hearing for the preliminary development plan.

C. **Preliminary Development Plan – Hearing.** The preliminary development plan will be considered at a public hearing before the Hearing Examiner after notice is given in the manner required by [SMC 15.215.260](#) [SMC 16A.13.010](#), Notice of Public Hearing.

D. **Preliminary Development Plan – Hearing Examiner Review.** The Hearing Examiner shall use the following minimum criteria when making a decision:

1. The proposed project will not be detrimental to present and potential surrounding land use;
2. Land surrounding the proposed development can be planned in coordination with the proposed development and can be developed so as to be mutually compatible;
3. Streets and sidewalks, existing and proposed, are in accordance with adopted City development standards to carry anticipated traffic within the proposed project and in the vicinity of the proposed project, in light of the criteria set forth in SMC 15.215.150, Access to Development;
4. Utility services and other improvements, existing and proposed, are adequate for the development and are to be completed by the estimated completion date of the PUD;
5. Each phase of the proposed development, as it is planned to be completed, contains the required parking spaces, recreation spaces, landscape and utility areas necessary for creating and sustaining a desirable and stable environment. Such requirements may be reduced through requested permissive variations as outlined in SMC 15.215.170, Permissive Variations in Requirements; provided, that the proposed development sustains a desirable and stable environment;

6. The project conforms with the basic intent of this code;
7. The project conforms to the SeaTac Comprehensive Plan, and any applicable area plan that has been adopted by the City pursuant to ordinance or resolution; and
8. If a subdivision application is being processed concurrently, conformance with the requirement of the Subdivision Code.

Following the public hearing, the Hearing Examiner may approve the application as proposed, approve with modifications and/or conditions, or deny the application and the accompanying development plan.

15.215.040 Final Development Plan

A. Final Development Plan – Failure to File, Termination.

1. In the event the development plan or any required attendant papers are not filed within twelve (12) months for permits in the applicable phases, the approval of the development plan shall lapse, and the approval shall be deemed null and void and without force or effect.
2. When it is determined as part of the PUD approval that the development plan is to be phased, then the development plan for the first phase must be submitted within twelve (12) months. In no case shall the total phasing of the project exceed five (5) years from the time of the development plan.
3. The time period for filing of final development plans shall not include periods of time during which progress on the final development plan is reasonably halted or delayed due to the filing and pendency of legal actions challenging an approval granted by the City pursuant to this chapter; provided, that in all cases when more than two (2) years have elapsed subsequent to the date of approval of a preliminary plan, whether due to the pendency of litigation, City-approved extensions of time for filing or otherwise, the permittee shall be required to comply with all current building, construction, subdivision and other applicable standards of the City prior to being granted approval of the final development plan.

B. Final Development Plan – Extension of Time for Filing. For good cause shown, the City Council Director in ~~its~~ his/her discretion, may grant a one (1) year extension of time for filing the final development permits and required accompanying papers.

C. Final Development Plan – Hearing Examiner Approval. After the public hearing, the Hearing Examiner shall approve or deny the final development plan. The Hearing Examiner shall enter reasons for such action in the records. The Hearing Examiner shall approve the final development plan if determined that it conforms to the standards, including minor changes approved pursuant to SMC 15.215.100, Adjustments – Procedures. For the purpose of this section, “substantially conforms” means that, as compared to the preliminary development plan, the final development plan contains no significant revisions in density, uses, design or development standards in the site plan, and that there is not such a quantity of insignificant revisions that the cumulative effect thereof constitutes, in the Hearing Examiner opinion, a significant revision.

D. Final Development Plan – Bond Required. No final development plan shall be implemented until the applicant files with the City an approved bond executed by a surety company authorized to do business in the State of Washington or other equivalent security approved by the City, in an amount equal to one hundred fifty percent (150%) of the Department’s estimate of the cost of all public improvements, utilities, and all landscaping portions of the final development plan, conditioned upon the permittee’s completion of such portions of the project according to the submitted final development plan and the provisions of this chapter, and, in addition, providing that no change, extension of time, alteration or addition to the project will in any way affect the obligation on bond. Said bond, or an additional bond or other equivalent security, shall also be conditioned upon full restoration of the site in the event that grading, clearing or any other site preparation or work is begun and abandoned, and in the determination of the City, it will better serve the public health, welfare, and safety to restore the site rather than to require completion of public improvements, utilities and landscaping. If the PUD is also being subdivided, the bonds required to be posted by the Department policies/standards, to the extent that they satisfy the requirements of this section, shall be accepted as full or partial fulfillment of the requirements hereof.

E. **Installation of Improvements.** In lieu of providing a bond or other suitable security for all required improvements, the applicant may install all such improvements in a manner as approved by the Department.

F. **Final Development Plan – Effect.** Approval by the Hearing Examiner of the final development plan for a PUD and filing of the bond for installation of improvements as provided in subsection (D) of this section, Final Development Plan – Bond Required, and subsection (E) of this section, Installation of Improvements, shall authorize the owner(s) of the parcel(s) to be developed as a unit to proceed with the project, acting in concert, and shall bind such owner(s) to the implementation of such final development plan and to the construction and maintenance of the PUD in strict accordance with such approved plan and the provisions of this chapter.

15.215.100 Adjustments – Procedures

No major changes in the approved final development plan such as rearrangement of lots (except as applied to binding site plans), blocks, streets, building locations or development standards, or other such changes, may be made subsequent to final development plan approval except upon application to the Department, and approval consideration by the Hearing Examiner, and approval by the City Council.

15.215.120 Extension of Time for Construction

For good cause shown, the City Council Director, in its his/her discretion, may grant a one (1) year extension of time for commencement or continuation of construction subsequent to approval of the final development plan.

15.215.150 Access to Development

The major internal streets serving each PUD located in the URM, URM, or more intensive zone shall be functionally connected to at least one (1) minor arterial or collector street as defined in the SeaTac Subdivision Ordinance. The streets connecting with any PUD, regardless of the zone in which it is located, must be of sufficient size and character to accommodate the traffic to be produced by the project without significantly altering the character of existing residential neighborhoods. Evaluation of the proposal pursuant to this section shall include consideration of the following criteria:

- A. The increase of traffic which will be generated by the development;
- B. The present width and condition of streets to be affected;
- C. Presence or absence of improved sidewalks;
- D. Potential impacts upon the value of surrounding properties;
- E. Anticipated effect upon availability of parking;
- F. Existence of a particular conflict between vehicular and pedestrian traffic; and
- G. The street type designated in City ordinances. (Ord. 15-1018 § 1)

15.215.260 Notice of Public Hearing

A. — Notice shall be given at least fourteen (14) days in advance of the public hearing by the posting of notices on the property of the PUD application and at SeaTac City Hall. Notice shall be published once in a newspaper of general circulation, and shall be mailed to all owners of property located within five hundred (500) feet of the exterior boundaries of the subject property, as shown on the records of the King County Treasurer, and to at least one (1) resident of each property which is contiguous to the subject property or separated from it by only a public right of way at least fourteen (14) days prior to the public hearing. The applicant shall provide the City with a list of the names and addresses of all such persons. The notice shall generally identify the property affected thereby, set forth the action requested, and the date, hour, place and staff member assigned by the Director for the hearing thereon. Continued hearings may be held at the discretion of the body considering the application, but no additional notices need be given if the hearing is continued to a specified date. When a subdivision application is being processed concurrently with the planned unit development, the notice requirements shall be met.

B. — No person who has received actual notice of a public hearing, to which the notice requirements of this section apply, shall have standing to challenge the legal validity of the action taken at or after said hearing on the basis that the notice requirements of this section were not complied with.

~~15.215.270 – Judicial Review~~

~~Any legal action to review a decision of the City Council or the Hearing Examiner under this chapter shall be filed in King County Superior Court within thirty (30) days of the decision, notwithstanding the effective date of any ordinance passed or proposed to effectuate said decision.~~
